

JUNIPER PICTURE LAB..

HELLO

I'm Karolina

I've always loved weddings. There is something magical about seeing all the people you care about gathered in one place, dressed beautifully, celebrating, laughing, and sharing such an important moment together. It's one of the few occasions in life where everyone slows down and simply enjoys being present.

That's why I love photographing weddings. My approach is relaxed and natural, focusing on genuine emotions, meaningful connections, and all the little moments that make your day uniquely yours. My goal is to capture not only how your wedding looked, but how it felt. ♡

From other couples

„Picking Karolína as our wedding photographer was hands down one of the best decisions we could've made for our wedding. She is an absolute joy to be around and was able to calmly navigate the whole process with professionalism and kindness.“

Valerie + Filip

„Absolutely amazing wedding photographer! She was very professional and kind throughout the whole process. Pictures were completed in about two weeks, but had a small preview of a couple dozen within days of the wedding. Loved working with her, as she was great with suggestions on settings and poses, and very capable of taking photos throughout the ceremony.“

Genny + Mark

„Karolina is just great - we recently booked Juniper Picture Lab for our wedding and we couldn't be happier with the results, the pictures look so good! She was also great on the day, really friendly and made us feel comfortable. She has a great eye and ability to direct people to get the best shot, couldn't recommend her highly enough“
